Personal Project

Home Services Online Portal System (Capstone Project using Web) – Not Live	2022
<ul style="list-style-type: none">I developed this project utilizing the native Laravel Framework, a robust platform tailored for seamless integration of HTML and Laravel Backend components. This project served as my thesis, showcasing my proficiency in web development and my ability to harness the power of Laravel for a comprehensive web application	
Laundry Booking System (Capstone Project using Web and Mobile) – Not Live	2023
<ul style="list-style-type: none">I built this project using Vue.js for the Web and Ionic Framework for Mobile and Laravel for the backend. This capstone project was paid by my previous batchmates. It's worth it because I learned the vue.js.	
Youth Profiling and QR-Based Management System for LYDO (Capstone Project using Web) – Not Live	2024
<ul style="list-style-type: none">I built this project using Vue.js for the Web and Laravel for the backend. This capstone project was paid by my previous batchmates also.
